The School Board has proposed three design options and these will be reviewed and discussed with the public during the Charrette. The Charrette process will also capture new ideas from the community and generate an additional option that everyone can agree upon.

Option 1

Does not honor the stipulation to **"appropriately rehabilitate"** the Rudolph addition

The Rudolph-designed gym is demolished, replaced with a new gym, in the same location

The breezeways are enclosed with structural framing and glass

New cafeteria is moved into existing media center

New media center is relocated to the entrance breezeway and east portion of building #4

New entrance into administration building conflicts with Rudolph entrance
